12 conversation cards for two people

Choose a quiet moment and any card. Both people answer the question on the front, then use the matching deeper prompt on the back. Listen without fixing, advising or testing each other. Skip any question. Try one card or set aside 15-20 minutes.

Print at home

Print pages 2-7 only on US Letter at Actual Size or 100%. Print double-sided and flip on the long edge. Back columns are mirrored to match the fronts. Test pages 2-3 first and check the card numbers.

Trim and play

Cut along the outer gold card borders. Finished cards are 3.5 x 5 inches. Use cardstock only if your printer supports it. This home-print edition has no professional bleed. A print provider may arrange the separate card pages instead.

For screen reading

Use the separate screen PDF: cover, instructions, then Card 01 front, Card 01 back, and so on.

Conversation Games 01

The first in a planned Joy Pie Studio series designed to support curiosity, communication and meaningful relationships. Ordering printed cards is not available during the pilot.
